

JenAct

**UV CROSSBOW
SURFACE**

*Stop the growth of
bacteria, moulds and
microorganisms, on foods
and food packaging, but
also on evaporator coils
within air ducts.*

UV CROSSBOW SURFACE

JenAct Limited specialises in UV Disinfection, UV Surface Sterilisation Systems and Microwave UV Technology, as well as new features, like Pulsed UV.

The UV Crossbow Surface has been designed to deliver UVC energy to disinfect foods, food packaging materials, (jars cans lids) medical and pharmaceutical products, either on a conveyor or a static surface.

Features Include:

- Simple to install and integrate into HVAC system or machines
- Efficient and easy to clean
- High-efficacy reflector (optional)
- IP65 rating (optional)
